Profile

I have been interested in programming since I got my first computer when I was 7. Ever since then I have been learning to understand computers algorithms every day. Programming is not just a job for me, it is also my hobby and dream job.

Professional Experience

Lead Developer, Inizio Internet Media – 2011-present

PHP Programmer and Lead Developer. My responsibility is to meet deadlines, communicate with customers and care about possible bottlenecks of these projects. I program mostly in PHP and JavaScript (CoffeeScript) and Java (Android, Swing).

Education

Applied Informatics, College of Polytechnics, Jihlava – 2010-2013

Did not finish with degree

Faculty of Information Technology, Brno University of Technology – 2009-2010

Did not finish with degree
